

# SYMPOSIUM

The Washington Fish and Wildlife Commission with financial support from the Northwest Power Planning Council will sponsor a symposium on September 22, 2001, concerning the biological and policy aspects of wild steelhead management. Fish management professionals from the Pacific Northwest and invited guests will give presentations on several steelhead management topics.

Topics to be covered during the symposium will be:

- Wild steelhead hooking mortality;
- Wild steelhead escapement objectives; and
- Wild steelhead harvest objectives.

# LOCATION

Seattle Center Pavilion  
Room A  
Seattle, Washington

Ample parking is available close to the Seattle Center

5:15-6:00 p.m.	Discussion and Summary

# PROCESS

Fish management science and fish management policy perspectives will be given on the three subject areas. Fish management professionals from the Province of British Columbia, the states of Idaho, Oregon, and Washington, and invited guests will give presentations. The forum will give speakers the opportunity to give background and their perspective on the subject area and participate in panel discussions.

The public will have the opportunity to ask questions.

Contact Symposium Coordinator, Bob Leland, WDFW Steelhead Program Manager, for additional information [(360) 902-2817].

Contact Debbie Nelson, Commission Operations Manager, to identify any special accommodation needs [(360) 902-2267 or TDD (360) 902-2207].

*This program receives Federal assistance from the U.S. Fish and Wildlife Service. Under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972, the U.S. Department of the Interior and its bureaus prohibit discrimination on the bases of race, color, national origin, age, disability and sex (in educational programs). If you believe that you have been discriminated against in any program, activity or facility, please write to:*
